Unique Elements

Our Key Telephone Set (KTS) is a sleek, easy to use full feature phone designed to completely utilize Aural system features.

One-touch LED Feature keys extend the list of features accessible from the KTS. The tri-color LED alphanumeric keypad provides access to key features.

The intuitive menu system is another outlet to access more features and settings. The menu layout is similar to most mobile phone menus keeping the phone simple and easy to use.

The large 4-line LCD displays time and date information as well as Caller ID and other feature status. The Phone Book, Call Records, Caller ID, and Voicemail features are simple to use and access with the Aural Key Telephone Set.

A Smart Selection

Aural Networks offer customers an advanced key telephone at an attractive price without forgoing features. The Aural 30 System combined with the Aural Key Telephone Set is a *smart choice* for the small business.
